

I thank God for the opportunity he gave me to be in the workshop of expository preaching that you shared here in the city of Oaxaca. This workshop was a great blessing in my life because I realized the great need that I have to learn how to do expositional preaching for the church, for your heart burns like mine was burning in the study week and thanks to the church for the support. I hope you can continue in this area of pastoral ministry.

God bless you and keep

Your brother in Christ Jesus
